

HOPE

OUR DOCUMENTARY

MADE BY STUDENTS FOR STUDENTS

The documentary 'Hope' originated from a collaboration between Film Production/Photography Students at the University of Portsmouth and a Prince's Trust Team programme cohort at Waltham Forest College. This project was originally thought to honour the outstanding work of Team Leaders in supporting young people to develop key skills to further their career goals. We had to revisit this creative collaboration due to the Covid-19 pandemic outbreak last year, we were not about to be defeated by long distance working relationships! 'Hope' has taken an unexpected turn, it has matured to a reflection on how young people benefit from the Team Programme in such unpredictable climate. These young people's testimonies show the importance of building communities and strong educational projects. We are planning to continue this collaboration and provide creative workshops to support the young people on their own projects.

FESTIVALS

Hope has been submitted to the Aesthetica Film Festival. The festival will run in November 2021

PROMOTION

Our documentary has been released on our social media and share by the Prince's Trust South and Waltham Forest College on their platforms. Our aim is to reach young people who might be lost and could benefit from the Team Programme

TESTIMONIAL

"Nice work Team... Loved the community project idea and hope to see the cycle helmet campaign soon!! Keep flowing"
